Answer to leftover chat room question from *Aditya Saraf's* LEARN/Seedling Seminar presentation, January 15, 2015

Question:
If the BBN can update their parameters by reflecting the real traffic or they are fixed once obtained.

Aditya Saraf:
Right now, the parameters are fixed.

Question: Is there any plan for real-time update on the BBN parameters if they are not currently being updated.

Adita Saraf:
Yes, this is one of the many things we will like to do in our phase 2 work.
