*This agenda may be subject to modification.*

**PLEASE REVIEW THIS MATERIAL PRIOR TO THE START OF THE MEETING:**
Thoughts on AAM Routes (aka Corridors) – Available [here](#).

**FREQUENTLY ASKED QUESTIONS (FAQs)**

Do I need to register?
Yes! To register, enter [https://nari.arc.nasa.gov/airspacewgregistration](https://nari.arc.nasa.gov/airspacewgregistration) into your browser and follow the instructions on the webpage.

**Please note there are 2 choices for registration:**

- **Active Participant:** You will have the ability to interact directly with the hosts through the MS Teams platform. As a result, we ask that you be prepared to participate fully in the meeting. Please ensure you review the read ahead material, Thoughts on AAM Routes (aka Corridors) (Available [here](#)). In addition, we will be capping active participation at 150 attendees.

- **Listen Only Participant:** You will have the ability to view the meeting in real time through YouTube Live Stream and ask written questions through the conferences.io platform. Note, these questions will only be addressed if time permits or at the facilitator’s discretion.

What platform will we be using?

- For **Active Participants**, we will be using MS Teams. Once you register, you will receive a confirmation e-mail with the MS Teams link and call-in details. Furthermore, NARI will resend the details on the morning of Tuesday Sept 1st.

- For **Listen Only Participant**, we will be viewing a YouTube Live Stream. The YouTube Live Stream link will be available on the NARI registration site ([https://nari.arc.nasa.gov/aamecosystem](https://nari.arc.nasa.gov/aamecosystem)) **15 minutes prior to the start of the meeting**.

Is there any pre-reading material?
Yes, please review the read ahead material (Available [here](#)) prior to the start of the meeting. In addition, we will be opening up the conferences.io session ([https://arc.cnf.io/sessions/hxyy/#!/dashboard](https://arc.cnf.io/sessions/hxyy/#!/dashboard)) on August 24th. This will allow you to post questions and comments prior to the start of the meeting. The goal is to use these posts to generate a robust discussion on September 1st!

How will the discussion be handled?
**Active Participant:** We will be utilizing the microphone and chat features on the MS Teams platform. Below are a few recommended best practices:

- Leave your cameras/webcams off to preserve WiFi bandwidth
- Enter comments/questions in the chat function on the right side of the screen

---

- The emcee will record and respond to the chat messages as applicable; or
- Call on the participants to voice their question and provide more clarity
  - Raise your hand if you wish to speak
  - Use your mute/unmute button (i.e. remain on mute unless you have been selected to speak)
  - Say your name and affiliation before you begin speaking

**Listen Only Participant:** We will be utilizing the conferences.io application in addition to the YouTube Live Stream. During the Q&A, priority will be given to the active participants and conferences.io questions will only be addressed if time permits or at the facilitator’s discretion.
  - To access conferences.io for the Q&A session, enter https://arc.cnf.io/sessions/hxyy/#!/dashboard into your browser
  - We will not be taking verbal or written questions from the Listen Only Participants through YouTube. However, you will need to use the meeting specific YouTube Live Stream link to see the slides and hear the discussion

Please note, this session may be recorded and shared on the NARI registration site (https://nari.arc.nasa.gov/aamecosystem) within a week or so of the event.

**Will the meeting recording and presentation materials be shared?**
Yes, the meeting recording and presentation materials that are approved for distribution will be shared on the NARI registration site (https://nari.arc.nasa.gov/aamecosystem) within a week or so of the event.
