

M:N WG Breakout Groups

- Goal:
 - Have breakout groups meet 1-2 times between quarterly meetings to discuss items pertaining to M:N and specific use cases
- Initial Breakout Groups:
 - Medium-to-large fixed-wing UAS operations (e.g., cargo delivery, aerial survey)
 - Urban Air Mobility
 - High Altitude Platform System (HAPS) operations
 - Small UAS operations & UTM
 - Swarms
- Group Discussion Topics:
 - Major technical & regulatory barriers to m:N
 - On-going operations and research
 - Potential areas for collaboration between organizations
- Initial Group Deliverables:
 - Identify high-priority gaps within each breakout group

M:N WG Breakout Groups

- Next Steps:
 - Will send out a poll to assess how many people are interested in joining each working group
 - People can also submit ideas for different groups
 - Large groups may be broken down into smaller groups; extra small groups may be combined; aiming for ~10 people per group
 - Current plan is to have members of the WG planning team lead each of the breakout groups and coordinate meetings/document discussions
 - However, people are welcome to volunteer to lead a group
 - First breakout group meetings will be in late April/early May
