

Dr. Eugene Tu

Dr. Eugene L. Tu is the center director at NASA's Ames Research Center, where he leads a staff of civil servants and contractors in providing critical research and development support that makes NASA's and the nation's aeronautics and space missions possible. Tu was most recently director of Exploration Technology at Ames, a position he held from November 2005 until his selection as Ames center director in May 2015. There he led four technology research and development divisions, including two of NASA's critical infrastructure assets: the consolidated arc jet testing complex and the agency's primary supercomputing facility.
