

## **Dr. Sanjiv Singh**

Dr. Sanjiv Singh is an Innovator, educator, and entrepreneur. He is a research professor at the Robotics Institute at Carnegie Mellon University and CEO of Near Earth Autonomy which he co-founded. Near Earth Autonomy develops autonomy for next-generation aircraft and will inspect infrastructure, deliver cargo, and transport people. Sanjiv led a team that demonstrated the first autonomous full-scale helicopter capable of take-off, landing zone evaluation, and safe descent. He currently leads several autonomous aerial cargo transport and inspection projects.
